

The following information shows the success rate of Rekom Biotech best sellers in evaluations for the development of a commercial diagnostic assay.

**Recombinant antigen K39
for *Leishmania infantum***

86% (RAG0061)

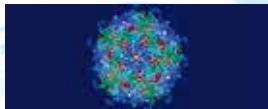

**Recombinant antigen Tpp17
for *Treponema pallidum***

100% (RAG0008)

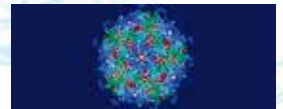

**Recombinant capsid antigen p18
for Epstein-barr virus**

86% (RAG0049)

**Recombinant antigen EBNA1
for Epstein-barr virus**

83% (RAG0007)

**Recombinant antigen p24
for HIV**

83% (RAG0057)

**Recombinant antigen gG2
for Herpes simplex virus type 2**

100% (RAG0087)

**Recombinant chimeric antigen
ChimChagas1 for *Trypanosoma cruzi***

100% (RAG0093)

**Recombinant chimeric antigen
ChimChagas2 for *Trypanosoma cruzi***

100% (RAG0094)
